Host family accommodation

Students are placed with host families. All placements are typically done in "double", **meaning 2 students from your group** are placed in the same host family. However, depending on the gender breakdown we reserve the right to place up to 3 students in the same host family.

Note that all host families speak both, English and Spanish at home

Transportation to and from school

Our host families are predominately located in the Kendall area and students receive a local transportation pass to go to and from their families. This pass allows students an unlimited number of journeys during their stays. The journey between the host family and school can be anywhere between 60 to 90 minutes each way.

Meals

The program is in **half board**. On weekdays, breakfast and dinners are with the host family and participant are responsible for their own lunches
On weekend the family provides all meals.
